DETAILED ACTION

1. It should be noted that the preliminary amendment filed on August 24, 2001 could not be entered since claims 19- 28 already existed in the application and are duplicates of those filed in the preamendment.

Claim Objections

2. Claim 22 is objected to because of the following informalities: the phrase "in said" is misspelled as "ins aid". Appropriate correction is required.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321© may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground

provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 19 and 20 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 5, 6, 8, 16, and 17 of U.S. Patent No. 6,315,006. Although the conflicting claims are not identical, they are not patentably distinct from each other because the language of claims 19 and 20 is encompassed by the limitations set forth in claims 5, 6, 8, 16, and 17 of the patent.

Allowable Subject Matter

5. Claims 21-28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Kazmierowicz, Berti, Bonjour, Prestidge, Sr., Botsolas, Nicholson, and Davis disclosing state of the art connections for insulated pipes.
